

ModelSnapshot

```
classDiagram
    class ModelSnapshot
    class Mediatype_Server_Migrations_IdentityDataContextModelSnapshot["Mediatype.Server.Migrations.IdentityDataContextModelSnapshot"]
    Mediatype_Server_Migrations_IdentityDataContextModelSnapshot --|> ModelSnapshot
```

The diagram illustrates a class hierarchy. At the top is the 'ModelSnapshot' class, represented by a white box with a thin black border and two empty internal compartments. Below it is the 'Mediatype.Server.Migrations.IdentityDataContextModelSnapshot' class, represented by a grey box with a thick black border and two internal compartments. The top compartment of the grey box contains the class name. The bottom compartment contains the text '# BuildModel()'. A blue arrow with an open triangular head points from the top of the grey box to the bottom of the white box, indicating that the grey class inherits from the white class.

Mediatype.Server.Migrations.
IdentityDataContextModelSnapshot
