

ControllerBase

```
classDiagram
    class ControllerBase
    class AccountController["Mediwatch.Server.Controllers.AccountController"]
    AccountController --|> ControllerBase
```

The diagram illustrates a class hierarchy. At the top is the 'ControllerBase' class, represented by a white box with three horizontal compartments. Below it is the 'Mediwatch.Server.Controllers.AccountController' class, represented by a grey box with three horizontal compartments. A blue arrow with an open triangular head points from the top compartment of 'AccountController' to the bottom compartment of 'ControllerBase', indicating that 'AccountController' inherits from 'ControllerBase'.
