

ControllerBase

```
classDiagram
    class ControllerBase
    class TagController["Mediwatch.Server.Controllers.TagController"]
    TagController --|> ControllerBase
```

The diagram illustrates a class hierarchy. At the top is the 'ControllerBase' class, represented by a rectangle with three horizontal compartments. The top compartment contains the class name. Below it are two empty compartments. A blue arrow with an open triangular head points from the 'TagController' class below to the 'ControllerBase' class. The 'TagController' class is represented by a rectangle with three horizontal compartments. The top compartment contains the full namespace and class name. The middle compartment is empty. The bottom compartment contains a list of five public methods, each preceded by a '+' sign.
