

ControllerBase

```
classDiagram
    class ControllerBase
    class OrderController["Mediwatch.Server.Controllers.OrderController"]
    OrderController --|> ControllerBase
```

The diagram shows a class hierarchy. At the top is the 'ControllerBase' class, represented by a rectangle with three horizontal compartments. The top compartment contains the class name. Below it are two empty compartments. At the bottom is the 'Mediwatch.Server.Controllers.OrderController' class, represented by a rectangle with three horizontal compartments. The top compartment contains the class name. The middle compartment is empty. The bottom compartment contains a list of methods: '+ OrderController()', '+ GetOrder()', '+ GetOrder()', and '+ PostOrder()'. A blue arrow with an open triangular head points from the top of the 'OrderController' class to the bottom of the 'ControllerBase' class, indicating inheritance.

Mediwatch.Server.Controllers.  
OrderController

+ OrderController()  
+ GetOrder()  
+ GetOrder()  
+ PostOrder()
