

ControllerBase

```
classDiagram
    class ControllerBase
    class AccountController["Mediwatch.Server.Controllers.AccountController"]
    AccountController --|> ControllerBase
```

The diagram illustrates a class hierarchy. At the top is the 'ControllerBase' class, represented by a white box with a black border and two empty internal compartments. Below it is the 'Mediwatch.Server.Controllers.AccountController' class, represented by a gray box with a black border and two internal compartments. The top compartment of the gray box contains the class name, the middle compartment is empty, and the bottom compartment contains the method '+ Login()'. A blue arrow with a hollow triangular head points from the top of the gray box to the bottom of the white box, indicating that 'AccountController' inherits from 'ControllerBase'.

Mediwatch.Server.Controllers.  
AccountController

+ Login()
